ABOUT US

Company Profile

The **SEVERIN company** is a leading manufacturer of indoor and outdoor tabletops for the hospitality, residential, garden and leisure industries. The production located in Ense (Germany) focuses on processing materials made of wood and plastic composites.

The Name Severin has stood for quality for several generations. Starting with a traditional carpentry in 1936, the Severin company further developed from a wood-processing manufacturing company, founded in 1955, to a world-class supplier to the furniture industry, combining nowadays tradition and innovation.

In addition, we have a manufacturing base specialized in CNC woodprocessing in Paderborn (Germany) which was inaugurated in 2017.

Our company maintains a long-term partnership with its customers and suppliers all over the world.

Manufacturing - our key benefits

- ★ Use of high quality material
- ★ Documented controls on incoming goods (raw material)
- ★ Efficient production processes with the highest standards of quality
- ★ Continuous monitoring procedures
- ★ Extensive training of all staff members
- ★ Thorough preparation of orders
- ★ Testing of end products
- ★ Competent technical advice
- ★ Consistent high quality according to DIN EN 438 norm (Compact-Exterior) and DIN EN 438-3-2005 norm for HPL (Lamidur)
- ★ Regularly tested, certified and audited by the TÜV Rheinland test institute (SEVELIT)
- ★ Sustainability: CARB (California Air Resources Board) Phase 2 certified & EPA TSCA Title VI compliant

Our 3500 m² logistics area

In the spring of 2022, the extension of the new logistics hall, including a state-of-the-art warehouse, was completed with over 2,000 m² of hall space. The new premises, together with the existing 1,500 m² logistics area, provide new storage space for raw materials/preproducts and creates potential production space.

In addition, the modern hall enables us to optimise our processes through a fully automated area warehouse with a direct connection to a cut-to-size saw. Furthermore, we offer efficient packaging of products in our buildings, as well as fast loading at our automated truck docking stations.

Our product portfolio

Our portfolio is specialized in high quality tabletops for both outdoor and indoor use. Nevertheless, some of our products combine the style and design of interior furniture with the practical durability and resistance of outdoor furniture.

These versatile indoor-outdoor tabletops can be used in any indoor ambiance with the benefit of combining outdoor and indoor design whilst meeting current requirements of the hospitality and catering industry.

Our product key benefits

- Stable and highly resistant
- Elegant design in line with current trends
- Weather-proof (outdoor tabletops)
- Resistance against UV rays (outdoor tabletops)
- Heat-resistant (fulfils requirements of DIN EN 438)
- Resistance to scratching, abrasion or impacts
- Extremely durable
- Excellent price-performance ratio

DUROLight PLUS & WOODstyle

Light indoor tabletops with trendy design

The indoor **DUROLight PLUS** tabletop presents a very elegant cubic design in line with current hospitality industry trends.

The honeycomb structure enables a perfect balance between low weight and exceptional quality, durability and robustness.

DUROLight PLUS has been especially designed as an indoor tabletop for professional use in hotels, restaurants, bistros and at catering events.

DUROLight PLUS
Light Rock

Key facts at a glance

- ⇒ Very lightweight tabletop
- ⇒ Special technology developed to provide high surface resistance to heat, scratches and impacts (DIN EN 438)
- ⇒ Innovative manufacturing process
- ⇒ Strong ABS edge
- ⇒ Excellent price/performance ratio
- ⇒ Wide range of dimensions and decors with different surface textures
- ⇒ Very-easy-to-clean surface
- ⇒ Easy fixing of all type of table bases without use of inserts

Our DUROLight tabletops use approximately 1/3 of recycled material or post-consumer wood

Sustainability

► CARB (California Air Resources Board) certified, meaning a significant reduction of formaldehyde concentration in production

► Saving of natural resources thanks to the reduced using of chipboards [overall thickness 48 mm (~ 2") with 2 chipboard cover layers of 12 mm (~ 1/2")]

Our trendy collection of 12 decors offers a perfect choice for many different ambiances

DUROLight WOODstyle - the revolutionary trend with solid wood effect

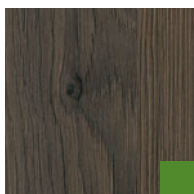

The **DUROLight WOODstyle** decors provide a revolutionary visual and touch effect.

The deep brushed structure of the tabletop surface in combination with the two matching edges of end-grain look make them hardly distinguishable from real wood tabletops.

Technical details

Lamidur

Elegant indoor tabletops with a very strong surface

Lamidur Classic Cracked Marble

Lamidur has been designed to meet the specific requirements of the hospitality and catering industries where elegant design and high quality are required.

Our Lamidur tabletops use approximately 1/3 of recycled material or post-consumer wood

Key facts at a glance

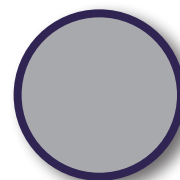

- ⇒ Enhanced layer construction for excellent surface quality and durability
- ⇒ Strong ABS edge
- ⇒ Outstanding stability also for big sized tables
- ⇒ Homogenous look ideal for indoor catering
- ⇒ Consistent high quality according to DIN EN 438-3:2005 norm for HPL (High Pressure Laminates)
- ⇒ Very easy to be cleaned
- ⇒ Great price-performance ratio
- ⇒ Easy fixing of table bases (by use of normal chipboard screws)

Lamidur dimensions

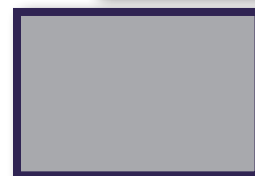

round shape

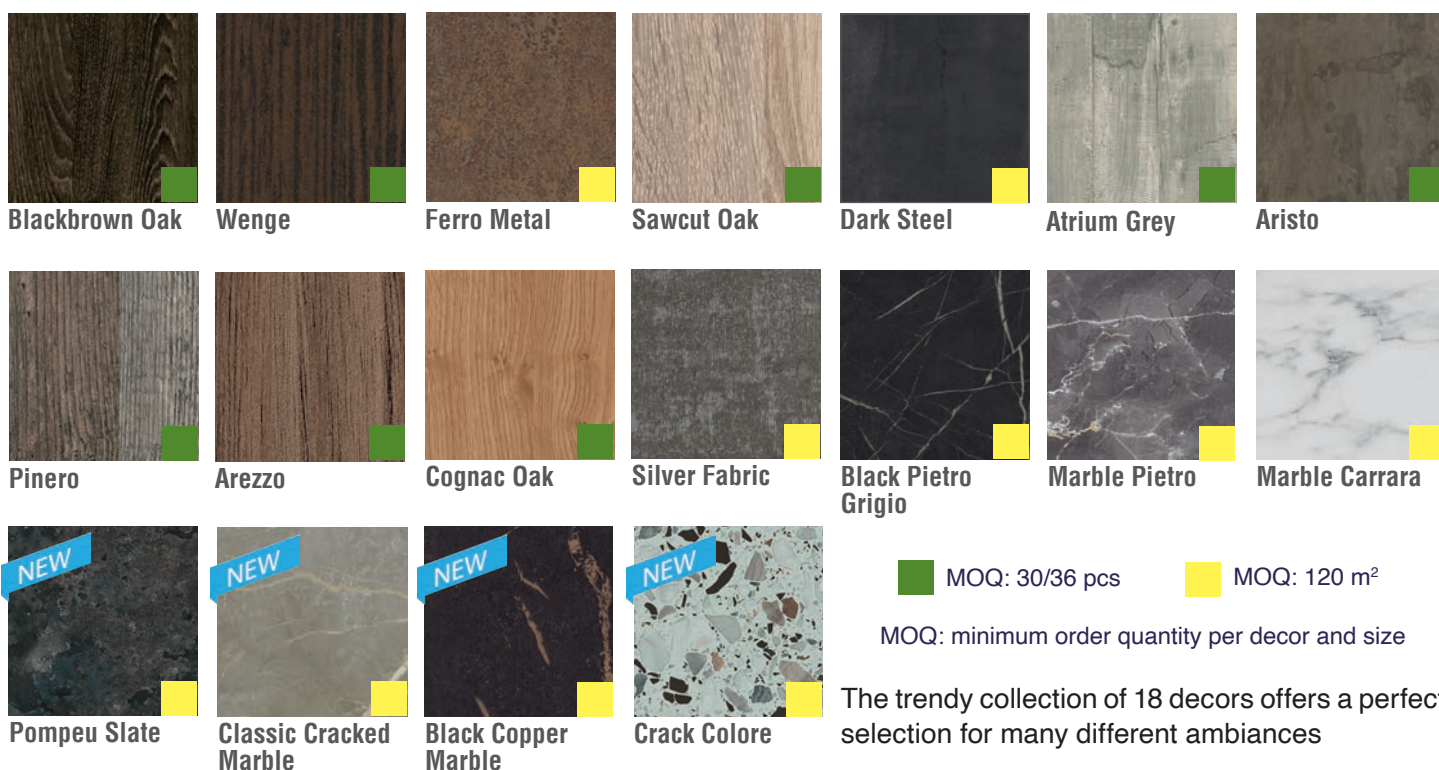

From
Ø 600 mm (~ 24")
up to
Ø 1.150 mm (~ 45")
Thickness: 25 mm (~ 1")

Extremely resistant outdoor tabletops

SEVELIT tabletops are renowned throughout the world for their outstanding quality, eye-catching design and long durability.

SEVELIT tabletops are versatile and ideal for hospitality, garden or camping furniture.

SEVELIT Dark Rock

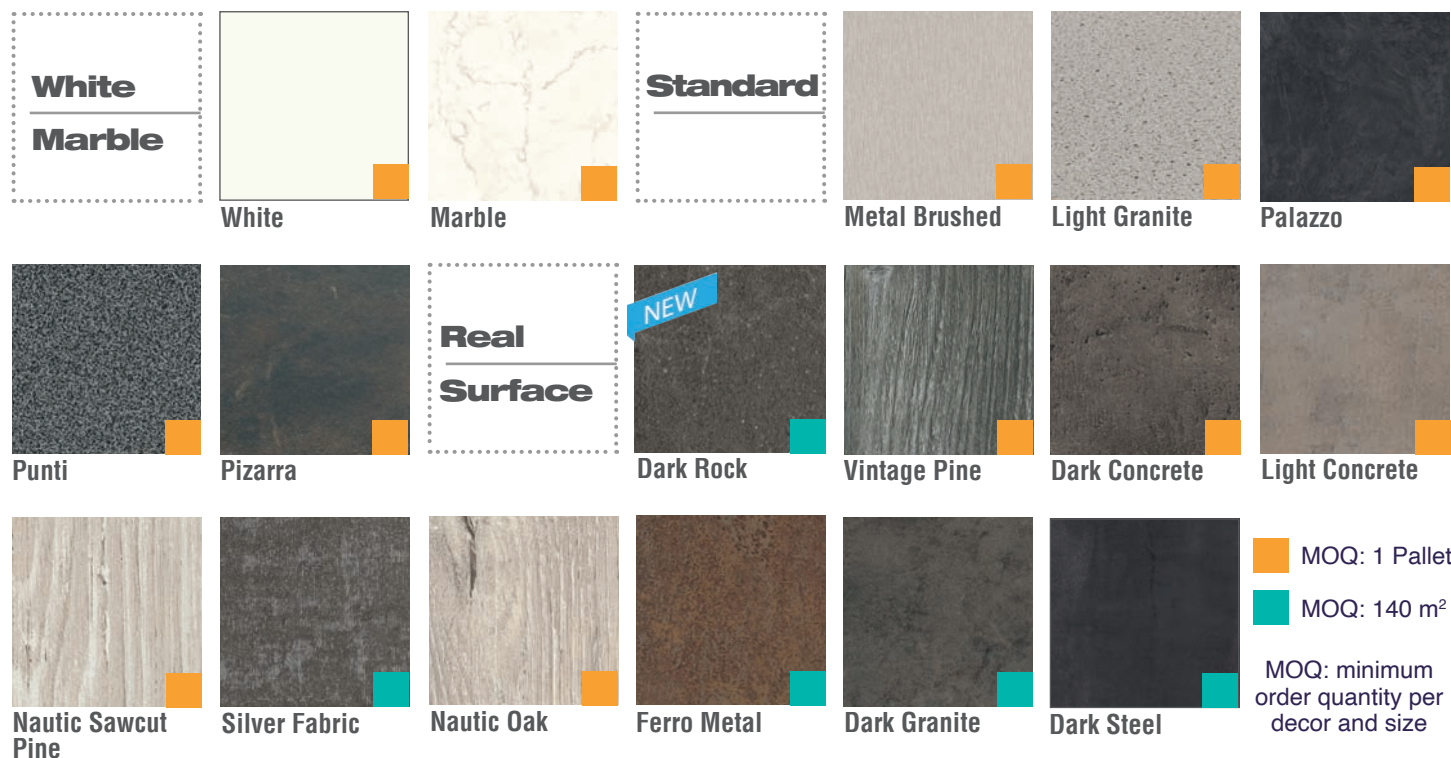

Our SEVELIT tabletops use approximately 1/3 of recycled material or post-consumer wood

Key facts

- ⇒ More than 30 years experience in the production of SEVELIT tabletops
- ⇒ SEVELIT Tabletops can be used both as indoor and outdoor furniture
- ⇒ High resistance against UV rays, bad weather conditions, cigarette burns and heat
- ⇒ Extraordinarily resistant to scratching, abrasion and impacts
- ⇒ Edges with innovative easy-to-clean surface
- ⇒ Innovative manufacturing process due to the use of high performance plastics to protect the tabletops from the damage usually associated with impacts and falls
- ⇒ Regularly tested, certified and continuously audited by the TÜV Rheinland test institute
- ⇒ Outstanding price/performance ratio due to the highly automated and efficient production process

The trendy collection of 17 decors, offers a perfect selection for multiple ambiances

This selection of decors may be subject to changes and updates to actual trends. Further decors are available on request.

We recommend the use of stabilizing tableframes or fastenings for dark coloured decors, in order to resist the bending forces caused by intensive sunlight.

Real Surface decors

Our Real Surface decors for SEVELIT tabletops follow the trend of industrial look and vintage design for the hospitality industry. They can be combined with the same decors for DUROLight indoor tabletops or Compact-Exterior outdoor tabletops.

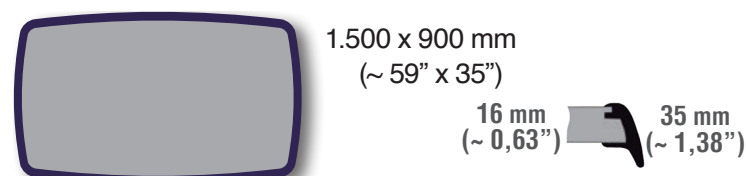

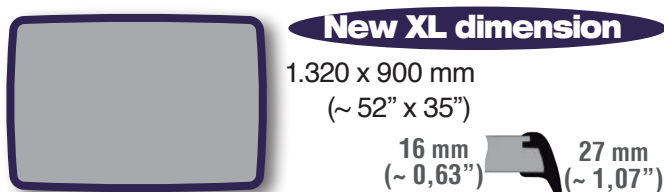

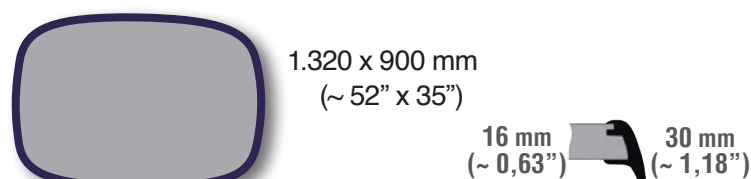

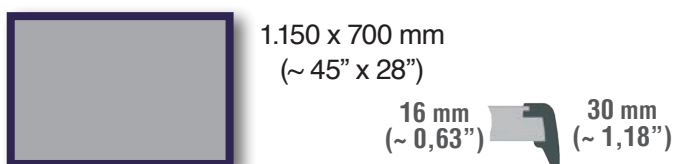

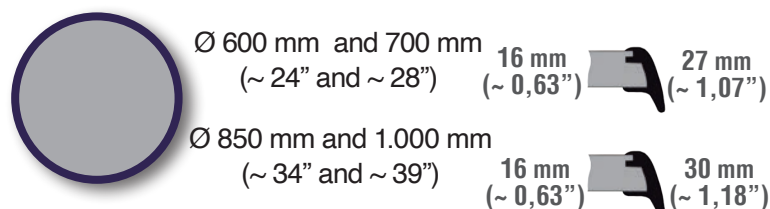

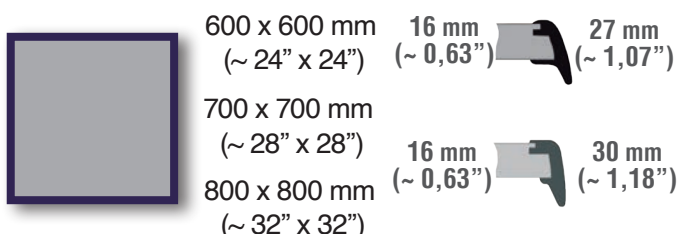

Logo tabletops

Our Sevelit logo tabletops are the ideal display medium for long-term advertising. Logo tabletops are available in the following dimensions: Ø 600 mm (~ 24"), Ø 700 mm (~ 28"), Ø 850 mm (~ 34"), 600 x 600 mm (~ 24" x 24") and 700 x 700 mm (~ 28" x 28").

C-Profile

C-Profile at 6 mm (~0,2"), 8 mm (0,3") & 10 mm (0,4") possible

Wing-Profile

Wing profile at 8 mm (0,3") & 10 mm (0,4") possible

Key facts

- ⇒ The tabletops are suitable for indoor as well as outdoor use
- ⇒ Their use increases flexibility and reduces storage costs
- ⇒ Very fast availability as all items (6 mm, 8 mm and 10 mm) are included in the stock program
- ⇒ High resistance to UV rays, special weathering, cigarette heat and heat resistance
- ⇒ Exceptional resistance to scratching, abrasion and impacts
- ⇒ Stain-resistance and low-maintenance
- ⇒ The product fulfills the requirements for consistently high quality in accordance with standard DIN EN 438
- ⇒ Wide range of shapes and profile designs (customized geometry can be made)
- ⇒ 6 mm for gluing, 8 mm & 10 mm with thread inserts or holes for self-tapping screws are possible

EXTERIOLIT

Light-weight and robust tabletop

Recommended for hospitality use

The **Exteriolit** tabletop features a very trendy, cubic design and is **ideal for use as hospitality furniture**.

The combination of poplar veneer board with HPL coating on both sides provides the perfect balance between low weight and high standards of quality and durability.

Exteriolit Atrium Grey

Ideal for Outdoor & Indoor

Sustainability

► Certification according to the specifications of the CARB (California Air Resources Board), i.e. a significant reduction of the formaldehyde concentration in the production is possible.

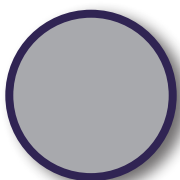

Key facts

- ⇒ Light-weight tabletop for outdoor use
- ⇒ Very easy clean surface
- ⇒ Specially developed technology made of poplar veneer board, moisture-resistant glued for a special resistance in areas with high humidity
- ⇒ High resistance due to the two-sided 1,2 mm thick (Exteriolit 30 mm) and 0,6 mm thick (Exteriolit 16 mm) HPL coating
- ⇒ Sturdy 2 mm ABS edge, UV-light resistant
- ⇒ Easy attachment of various table frames with direct screw connection
